Full Stack Developer

Santa Cruz de la Sierra, Bolivia | +591 69026852 | gabrielta1798@gmail.com

LinkedIn: www.linkedin.com/in/gabtorres17

Github: <https://github.com/GabTorres17>

Full Stack Developer with previous experience in customer service and a degree in general medicine, which helped me develop teamwork skills, work under pressure, and maintain discipline in my duties and studies. Focused in Frontend, with knowledge in agile methodologies, GIT, data structures, algorithms, and CSS frameworks. Experienced in Frontend and Backend development / data architecture. Adaptable, creative, and proactive.

LANGUAGES:

English Level: Advanced (C1)

Portuguese Level: Intermediate (B2)

TECHNOLOGIES:

Programming Languages: JavaScript, TypeScript

Framework Tools: React.js, Redux, HTML, CSS, Next.js, Node.js, Tailwind, Express

Databases: PostgreSQL, Sequelize

Tools: Git, Jira, Confluence, Slack

Agile: Scrum

PROJECTS AND EDUCATION:

Full Stack Web Developer - Countries Project

Apr. 2024 - May 2024

countries-pi-front.vercel.app

Academic experience. Henry Bootcamp

App focused on displaying all countries from an API with their respective geographical data, also allowing to view created tourist activities through a form within the page.

Front: React.js, Redux

Back: Node.js, Express

Database: PostgreSQL and Sequelize

Full Stack Web Developer - E-Books Palace

Jun. 2024 – Jul. 2024

<https://ebooks-palace-frontend.vercel.app>

Objective: An advanced e-commerce platform where users can discover and purchase their favorite digital books through enhanced filtering options, personalized recommendations and a user-friendly interface.

In this project, I developed several key features to enhance the user experience and functionality of the e-commerce platform:

- Created a form for the admin dashboard to add new books, utilizing **Cloudinary** for efficient image and file upload and management.
- Created a user list for the admin dashboard, bringing a whole list of the users belonging to the database, from which the administrator has the permissions to make new administrators, ban or unban users.
- Implemented **Stripe** to ensure secure and seamless payment processing for all transactions.
- Integrated **Auth0** to provide secure and scalable authentication and linked it to a backend verification to retrieve user data from the database, ensuring secure access and saving the data in **local storage** for efficient session management.
- Developed the backend to handle digital book downloads, using **Cloudinary** for reliable and fast delivery.
- Developed multiple backend routes using RESTful APIs with Express, Node.js, and Sequelize. In these projects, I designed and managed various HTTP routes (GET, POST, PUT, DELETE) to interact efficiently with the database. I used Sequelize as an ORM to handle database operations in PostgreSQL, defining models and their relationships, and ensuring robust and scalable data management.
- Implemented controllers to process route requests and responses, ensuring a clean and organized server architecture.

Front: React.js, Redux, CSS

Back: Node.js, Express, Sequelize

Database: Sequelize and PostgreSQL

Other technologies: Nodemailer, Auth0, Cloudinary, Stripe, Toastify, Github

Portfolio

July 2024 - Present

<https://gabtorres17portfolio.vercel.app/>

Website created to display my capacities, skills and education in Typescript.

Front: Next, Tailwind

Other technologies: Framer Motion

Web Development Course

2023-2024

Henry Bootcamp – Buenos Aires, Argentina

Full Stack Developer course with over 700+ theoretical and practical hours.

General Medicine Degree

2017 - 2023

Universidad Católica Boliviana “San Pablo” – Santa Cruz de la Sierra

Adobe and Facebook Ads Course

2018

EduDiseños – Bolivia

OTHER EXPERIENCES:

General Practitioner

Jan. 2022 - Dec. 2022

Hospital E Maternidade OASE – Santa Catarina, Brazil

- Stay updated on the latest medical developments and advancements through continuous professional development courses and conferences.
- Provide culturally sensitive and personalized care to individuals from diverse patient populations, addressing unique health needs and concerns based on culture, background, and beliefs.
- Diagnose complex cases by ordering and accurately interpreting appropriate tests, ensuring timely intervention.

Customer Service Representative

Mar. 2020 - Dec. 2020

Abasteciendo SA - Santa Cruz de la Sierra, Bolivia

- Efficiently handled escalated calls, finding satisfactory resolutions for both customers and the company.
- Assisted customers in tracking their orders and placing new ones, enhancing the overall customer service experience.
